

FACTSHEET

November 2021

Company

Urban Resort Concepts (HK) Ltd. (URC) was established in 2004 and is registered at 3 Sugar Street, Causeway Bay, Hong Kong, SAR.

Services

URC offers hotel management services as well as technical services, master planning, and hospitality advisory.

A Team with World Class Experience

URC directors amass over 100 years of collective experience developing and managing some of the world's finest luxury hotels and resorts.

Senior management positions at The Ritz-Carlton Hotel Company, One & Only Resorts, Kerzner International, Shangri-La Hotel Management and Starwood Hotels, paired with the unparalleled success of URC's first and flagship property, The PuLi Hotel and Spa demonstrate a proven track record, hardly rivalled in the industry.

Luxury. Handcrafted.

A URC hotel is conceived starting with a blank sheet of paper and every aspect of its design and guest experience is entirely bespoke to context, customer and destination.

We consider the development and management of a luxury hotel a craft; one that requires experience, skill, dedication, craftsmanship and an uncompromising attention to detail. We are small and guest-centric; and like it that way.

Asian Hospitality

Our customers are our guests and we are working hard on making their experience at our hotels a quintessentially intuitive, generous and domestic one. We don't deal in room numbers but in personalities. Our DNA is rooted deep in Asia's famed hospitality and our corporate culture is one that is anchored in genuine warmth and respect.

Results for Owners and Partners

Our experience, expertise and leadership delivers the results we promise.

We operate to the highest standards of integrity and ethics, in full transparency and in complete commitment to our partnerships with owners, developers, customers and employees alike.
